

Dominion Government Will Fix Minimum Price For Wheat

Canadian Wheat Board to Function For 1938-39 Crop. Participating Certificates to Share All Profits

Ottawa (CP)—The Canadian Wheat Board during the coming crop year will lay off wheat offered at selling at minimum prices to be fixed later by the Board, and giving the farmer participating certificates entitling him to share in any profits made by the Board in selling above the minimum price, it was indicated in Ottawa today.

Following a cabinet meeting announced Minister Mackenzie King announced the Wheat Board will purchase from the farmer during the coming crop year starting August 1, without limitations imposed on such purchases throughout the present crop year.

During the present crop year the Board has a minimum price of 87 1/2 cents a bushel, raised by the government. Regardless of how low the market might fall, the producer was to get that minimum.

It was provided the Board should not buy any wheat so long as the market price was above 90 cents a bushel, the market price remained above 90 cents, the Board bought on when this crop year.

Conservative members of the Cabinet pointed out the danger of refusing to buy wheat unless the market fell below a definite price was not in conformity with the Wheat Board Act, and was illegal because it was done by order-in-council.

Mr. Mackenzie King expressed confidence in the legality of the government's action.

During the war request came from the War Office for wheat, which should be permitted to sell to the Board for a minimum price and for marketing outside the country.

It was pointed out that the Board would be asked to sell wheat at a price below the market price, and if the price was below the market price, the Board would be asked to sell wheat at a price below the market price.

Mr. Maclellan in the Wheat Board, he said a minimum price, considerably lower than the market price, but he will share in any advances through participating certificates.

Wedding Belles

BILL—ROSE
At a quiet home wedding on July 4th, at 4 o'clock, Miss Frances Evelyn Rowe, eldest daughter of Mr. and Mrs. A. W. Rowe of Girdle, became the wife of Henry C. Rowe, son of Mr. and Mrs. E. J. Rowe of Hume—Reverend T. F. McFarlane officiating.

Third Alberta Bill Is Dismissed By Privy Council

Final of Two Social Credit Acts Declared Unconstitutional

It was announced on Thursday of last week that the Privy Council had dismissed the appeal of the Attorney-General of Alberta from a judgment of the Supreme Court of Canada that the Social Credit Act was unconstitutional.

The decision, legislating the court ruling on the third and last of the appeals of the province from the judgments invalidating legislation sponsored by the Social Credit Party, was announced by Lord Atkin, who said the Privy Council would not make a cost order and would not award any damages.

A HEALTH SERVICE OF THE CANADIAN MEDICAL ASSOCIATION AND LIFE ASSURANCE COMPANIES IN CANADA

APPENDICITIS

Is one year appendicitis was responsible for over four hundred deaths in Canada. More people died from appendicitis alone than from typhoid fever, measles, scarlet fever, diphtheria and all other diseases put together. The appendix is of much too frequent occurrence, but the fatalities arising from such accidents are fewer than those due to appendicitis.

The City of Philadelphia has given particular attention to this disease. For four consecutive years, a clinic has been held at all appendicitis deaths occurring in that city in order to determine the factors which contributed to the fatal outcome. At the same time, the Department of Public Health carried on an educational campaign in the hope of improving conditions. We should learn from the experience of Philadelphia in order that we may profit by it, and as the figures of the Philadelphia study are presented to our readers.

Patients admitted to hospital within twenty-four hours of the onset of symptoms had a mortality of less than 2 per cent; between twenty-four and forty-eight hours the mortality rose to over 4 per cent; when the delay was between forty-eight and seventy-two hours, it was nearly 6 per cent; after seventy-two hours, it reached over 8 per cent. From these figures summarizing the experience of a large city for five years, it is shown so clearly that everyone may understand that the percentage of deaths rises in ratio to the delay in securing proper treatment.

There were over 18,000 cases studied. Of the total, approximately 3,000 did not have a laxative and 1 in 17 died; over 5,000 were given a laxative and 1 in 15 died; 729 had more than one laxative and 1 in 9 died. Those who read these figures will surely never forget that the giving of laxatives to men, women or child who has a pain in the abdomen is the most dangerous thing which can be done.

When there is a pain in the abdomen nothing should be taken by mouth and no food or drink, and a laxative. When pain persists is usually serious, and the sooner the patient is under proper care the better, because if the condition is appendicitis delay is dangerous, as has been clearly shown by the Philadelphia experience.

The clinician who consults are not so but unless they make the first page.

Reach Agreement Regarding Help For Austrian Refugees

Briss-Les-Bains, France.—Great Britain and the United States were understood to have reached a tentative agreement regarding a permanent international refugee fund to assist refugees from greater Germany.

The Anglo-American plan, it was said in well-informed quarters at the 20-nation inter-governmental refugee conference in Vienna here last week, would be to create a fund of \$100 million.

The headquarters of the organization would be in London in accordance with its Paris, at first suggested.

That it results from free cooperation with existing refugee groups organized under auspices of the League of Nations.

Great Britain, the United States, France, Argentina and Brazil would be represented on the permanent committee.

Possibility of creating branch offices in the various European capital cities was under consideration, with special emphasis to those where the refugee problem is serious or likely to become so.

Approval of the Anglo-American plan by the inter-governmental conference, which was called by President Roosevelt, would be followed by similar resolutions with 48 countries, many to Britain and systematic action by Germany and Austria Jews, it was said.

The delegates reported German officials had been asked to allow Austrian Jews to leave with 20 percent of their goods as an immediate reprieve, with 40 percent to be sold within 10 months and 40 percent to be sold within 10 months to quit Germany.

Britain's government spokesman declared the "Austrian Jewish workers" the American-made plan would be to allow Austrian Jews to leave with 20 percent of their goods as an immediate reprieve, with 40 percent to be sold within 10 months and 40 percent to be sold within 10 months to quit Germany.

British Maritime

New Grave Danger Of Competition

London.—The Labor opposition against the government in the House of Commons on Tuesday, May 1, 1934, was that the British maritime industry is in danger of competition from the United States.

Arthur Greenwood charged the United States with a "grave danger" to the United Kingdom today.

While this is happening, he said, some of our competitors are now heavily subsidized. The United States, Japan, Germany, Italy and Russia are subsidized in one form or another.

Pointing to wartime changes, Mr. Greenwood said the British merchant fleet, which was built up to 10,000,000 tons in 1914, is now down to 10,000,000 tons.

He added it possessed only 28 percent of the tonnage of the United States, which he pointed out, before the Great War.

Alan Graham, Conservative, gave notice he would ask Alfred Duff Brown, first lord of admiralty, to allow Japan to build 20,000,000 tons of ships.

He said the United Kingdom is not in a position to build 20,000,000 tons of ships. He said the United Kingdom is not in a position to build 20,000,000 tons of ships.
